

LEGEND AND SUMMARY OF BEC WHITE NORTH DAY RIDER TRAIL (WHITE RIVER PLUS WHITE FOREST)

WHITE NORTH 25.0 miles Counterclockwise loop (pink on map, white diamonds on trail)
Start downstream on River Rd.

WHITE NORTH: The trail starts downstream on River Road, goes to the lagoon, turns right and crosses the paved road, climbing uphill and into woods. The trail passes below the carriage barn and turns left go alongside Deer Park Rd. and then crosses the road and goes into the woods. The trail comes back out to Deer Park Rd., crosses the main exit road, goes down to the river and turns right on River Rd. The trail continues past the French Broad River bridge, continues along the river, goes parallel to a paved road beside a field, crosses the road and returns to woods trail, then goes downhill into fields. Follow the white markers through fields then back under I-40 overpass, turning sharply RIGHT just beyond the overpass, crossing and winding up a large open field. Just beyond the open field at 8.8 mi, there is an alternate ½ mi connector to Deer Park that enables a continuation on White Forest (13 more miles) or a shorter return by Red North (2 miles). Otherwise continue through woods and fields to Deer Park area and Carriage Barn. Take the left fork at 11.7 mi to join White Forest. Continue through Deer Park Fields crossing 2 paved roads and into woods. About 16 miles out, come onto gravel road for short distance and then turn left onto single track up hill to Lone Pine Mountain, the high point on the Estate and then go around the old water reservoir for the Estate. Come downhill alternating gravel road and single track, past the Bass Pond at about 17.6 mi. At the Bass Pond, one can take the connector marked with Red Arrows on Yellow Discs for 0.9 miles directly back to the Day Trailer Parking Area. For full White North, from Bass Pond head back into woods for another 7 miles, crossing Dingle Creek twice and on to the BEC area. Return downstream on River Rd. for about ½ mile to Day Trailer Parking.

MARKING: Follow White ARROWS! Loops are marked with diamonds with black arrows attached to trees or stakes. Diamond is in the color of the trail.

At turns, expect one or more warning arrows before the turn. Example - turn arrow for White Trail.

There are confirming straight arrows after turns. Example - confirming arrow for White Trail.

There are occasional “go straight” arrows along the trail. Example - straight arrow for White Trail.

Color-matched octagons with **Large Black X mean wrong way** on the loop of *that color octagon*.
